

The Sea Group

Lab ID: LCP- 032

Date: 14 Jan 2019

**SUBJECT: The Sea Group Material Testing Lab- Construction Material Testing Services
Certification Status Changed to Suspension**

This is to advise you that your ABA Certification to perform Construction Material Testing services, issued on 10 August 2018, has been changed to a Suspension Status, effective immediately. You are not authorized to perform any material testing services during this suspension period.

This action is taken as a result of your lab moving to a new location. The certification is contingent upon, if the laboratory moved to a new location, it will require re-certification.

Following are the Actions required for reinstatement:

1. Prepare the essential package, include update Business License, Master Test List, and request form and submit for re-certification.
2. Submit the renewal certification package in accordance with SOP, section B1-3
3. Prepar for, coordinate and enable the on-site inspection by LCT.
